Creating a Talent Pipeline for Large Companies in
One Year

September 25, 2023

Case Study: Creating a Hiring Pipeline

Challenge – Community College Technical Training

- **Companies** want their local community colleges to help provide a pipeline of technical workers
- **Community colleges** want to provide local students an opportunity to join these companies in high-paying technical careers
- Many **students** want to pursue a technical career rather than a four-year college
- Companies, community colleges and students will all agree that more can be done
- This case study explores the partnership between MidAmerican Energy, Des Moines Area Community College (DMACC) and Index

Solution – MidAmerican, DMACC, Index Partnership

- **MidAmerican Energy**, a large utility, needed a strong pipeline of future electric line workers
- **DMACC** could support with classrooms and instructors
- A career line worker at a major utility is an attractive career to many **students**
- **Index AR Solutions**, in collaboration with MidAmerican experts, had just completed and deployed a “best in class” line worker apprentice program for their employees
- Index and DMACC signed a teaming agreement to support the Fall 2022 semester

Index App and eBook Content Preview

Index Support Provided

- Index provided the following to the class:
 - ✓ Apps and eBooks
 - ✓ iPads for each student
 - ✓ In-person instructor training
 - ✓ In-person student tutorials
 - ✓ Weekly 30-minute virtual meetings during class
 - ✓ Ongoing technical support

Student Experience

- Majority of students were recent high school graduates.
- **100%** of students said the course, which included eBooks and apps, helped them decide whether to pursue a career in the utility industry
- Majority of students said they were “very likely” to recommend the apps and eBooks to a peer.
- Students were surveyed at graduation:
 - iPad experience: **5.0 out of 5.0**
 - App experience: **4.8 out of 5.0**
 - eBook experience: **4.6 out of 5.0**
 - 30-minute call experience: **4.7 out of 5.0**

“Made life easier for a hands-on person”

“Very easy to follow and allowed me to learn efficiently”

“Great to be able to learn and visualize what you’re supposed to be doing”

“Easy to use and navigate”

Results

- High retention rate: 14 of 15 **students** graduated the 1-year program
- 13 of 14 **graduates** accepted job offers within one month of graduation
- The salary range of **student** offers was \$60k - \$72k
- Successfully established reliable pipeline of qualified candidates for **MidAmerican**
 - 8 of 14 (57%) graduating students accepted jobs at **MidAmerican**
- **DMACC** so pleased with pilot that they are doubling the second-year class from 15 to 32 students.
