INDEX AR SOLUTIONS LINEASSIST SUPERAPP®

INTRODUCING THE INDEX AR SUPERAPP® PRODUCT FAMILY

Index AR unveils the SuperApp® family of pre-packaged AR applications, each tailored to address common workforce challenges across industry. Index AR is building a library of SuperApp® products over time, giving clients a selection of robust AR solutions that can be rapidly procured and deployed to meet specific business needs.

WHY LINEASSIST SUPERAPP®

The LineAssist SuperApp® is a highly visual mobile training and field application that helps electrical utility linemen visualize and perform complex maintenance tasks more safely and faster. It fundamentally transforms how linemen are trained in the classroom and do work in the field.

Delivered from a mobile tablet, the LineAssist SuperApp® provides detailed step-by-step instructions through AR, with imagery that is overlaid on the various utility structures that workers encounter on a service call. Safety warnings, 3D animations and written instructions are also built into the app, presented in the context of key steps.

The LineAssist SuperApp® captures the knowledge of a utility's most experienced linemen and delivers a set of maintenance best practices for three different pole-mounted voltage regulators and five different control panels – enabling linemen to visualize and more safely and easily perform tasks that could be less familiar to them.

Previously, a utility might have had to roll multiple trucks to troubleshoot and service a certain type of device. But with LineAssist, utilities can quickly teach line crews how to perform highly technical work, with training and visualization they can take with them into the field.

Available today, LineAssist is the first offering from Index AR's emerging SuperApp® library of AR applications.

INDEX AR IS AN INVESTMENT IN PEOPLE

We don't augment reality, we augment people.

Our offerings:

- make people more capable and productive, and thus more valuable;
- augment and enhance worker performance (Index AR does NOT replace people); and
- create a sustainable competitive advantage for companies that adopt the technology early, resulting in a safer and more efficient environment.

HOW INDEX AR WORKS WITH CLIENTS

Our dedicated team of AR professionals uses its industrial experience, expertise and knowledge to create solutions for clients across a variety of industry verticals. Index is transforming the way work is performed in aerospace, construction, manufacturing, mining, shipbuilding, logistics, energy and utilities, equipment maintenance and operation, sales, workforce education and any other place where workers can benefit from rich visualization.

CONTACT US

AR is ready now. An enterprise can deploy AR and immediately reap the benefits of this investment in their people. Visit the Index AR Solutions YouTube channel to see first-hand worker experiences with AR, as well as worker testimonials. There is no reason to wait. Potential clients can get an on-site, hands-on demonstration.
